Backend	REST APIs, Django, Django REST Framework
Databases	PostgreSQL, MySQL, SQLite, Database Design, Data Modelling
Frontend	HTML, CSS, Bootstrap
Tools and Practices	Git, GitHub, VS Code, Debugging, API Documentation

EXPERIENCE

HR Executive	Mar 2026 – Present
Hari Om Udyog India Pvt. Ltd (HM Elite Placements)	<i>Nashik, Maharashtra</i>
- Played a key role in setting up HM Elite Placements from its initial stages, supporting activities including brand name finalization, logo development, website coordination, trademark and registration processes, and operational readiness for launch. - Designed and documented recruitment SOPs, operational manuals, and end-to-end hiring workflows to standardize placement operations. - Attended client meetings to understand manpower requirements and coordinate recruitment activities aligned with hiring needs. - Leveraged diverse sourcing channels such as Naukri, Indeed, referrals, and professional networking groups to identify, engage, and shortlist candidates aligned with client hiring requirements. - Coordinated interview schedules between candidates and client HR teams, ensuring smooth communication and a positive candidate experience throughout the hiring process. - Built and maintained candidate pipelines, tracked recruitment progress, and followed up with Client HR's to support timely position closures. - Collaborated with internal teams and external partners to streamline recruitment processes and improve operational efficiency within the placement division.	

Technical Operations and ERP Support Associate

Nov 2025 – Feb 2026

Pamtsoft Infosolutions, Client Location : Entraco Bks Busducts Pvt. Ltd.

Nashik, Maharashtra

- Supported ERP implementation across Purchase, Store, Production, and Quality modules.
- Assisted in configuring system workflows aligned with procurement and stock movement processes.
- Coordinated issue resolution between business users and technical teams.
- Trained department users on ERP operations and usage best practices.

Web Developer Intern

May 2025 - Nov 2025

A2Z IT Hub Pvt. Ltd.

Nashik, Maharashtra

- Developed backend features using Django ORM and REST architecture.
- Improved existing modules by optimizing query handling and model relationships.
- Maintained version control using Git and GitHub in collaborative environments.

PROJECTS

ERP Backend System – Inventory and Procurement (In Progress)

- Designed modular master data architecture (Item, UOM, Category, Stock Location).
- Implemented relational integrity using ForeignKey constraints and business rule validations.
- Structured procurement workflows including Purchase Orders, GRN processing, and stock movement logic.
- Focused on scalable backend design aligned with real-world ERP operations.

Student-Course Enrollment API. [Github](#)

- Built RESTful API using Django REST Framework..
- Designed many-to-many relationships with intermediate models to enforce enrollment constraints
- Implemented state-based logic (ACTIVE/DROPPED) to maintain system integrity.
- Deployed production-ready application on Render.

LogMate-Internal Logging Tool [Github](#)

- Developed a structured logging system to track daily technical activities.
- Implemented CRUD workflows with time-based filtering (1, 7, 30 days).
- Designed relational database models for activity tracking and reporting.
- Deployed and actively maintained with 60+ real usage entries.

CERTIFICATIONS

- Data Analyst with Genarative AI – Analytics Benchmark (Pursuing)
- Java + Python Full Stack Development - CoDingSeekho Institute (2025)
